Student Activities & Recreation

At AIMST, we encourage students not only to excel academically but also to participate in extracurricular activities, including participation in sports and cultural events. Students may also form new organizations by contacting the Student Affairs Division.

The sports and recreational facilities available include:
- Badminton court
- Gymnasium
- Running track
- Olympic-sized swimming pool
- Basketball/football court
- Volleyball court
- 9-hole golf course
- Multi-purpose field
- Free-to-use football field
- Aerobics room
- Fitness facility
- Tennis court
- Table tennis
- Snooker & Pool room
- Chess & Bridge room

In addition, there is a purpose-built Student's Activities Room as well as a comfortable Student Study Area.

Healthcare

The AIMST on-campus Student Healthcare Clinic is open to provide routine medical care for students and staff alike.

Student Affairs & Accommodation

The Student Affairs Division is responsible for catering to the needs and welfare of students and staff. The Student Affairs Officers will assist in receiving and processing applications for hostels for both domestic and international students. In addition, it ensures the development and management of student activities to enhance learning and personal development.

Food

AIMST canteen caters to staff and students. Our canteen serves both vegetarian and non-vegetarian (halal) food. We have a wide selection of dishes on the menu, which includes delicious local and western cuisine.

International Office

Our International Office provides several services for overseas students, some of which are:
- Visa/Student pass application
- Arranging for student pass
- Establishing contact with embassies
- Organizing and arranging flights
- Counseling
- Advice on financial aid resources

The University

AMIST is a forward-looking, campus-based private sector university established in Malaysian former Prime Minister Tun Dr. Mahathir Mohamad's vision. Its mission is to offer world-class education at affordable rates to one and all, in line with the aspirations of its visionary founder, YB Dato' Sri Utama S. Samy Vellu. The programmes offered by AMIST are rated at Tier 4 (Very Good Category) by QS-Asia.

AMIST draws on the expertise of a pool of experienced lecturers, with a strong foundation in their respective fields. AMIST's programmes are designed in collaboration with industry partners, ensuring that students are equipped with the skills and knowledge required for the workplace.

Curriculum Structure and Outline

The MBBS programme is modular in nature and is structured in three phases:

### Phase I

The first two years from Phase I – the Integrated Practical Years. The first year programme features integrated teaching of molecular and cellular basis of Medicine through modules such as Human Biology, General Pathology, Medical Biochemistry, and Microbiology. This is complemented by the laboratory-based skills programme which equips students with the skills and knowledge required for the workplace. In Phase II, students undertake a series of clinical rotations in various specialties, covering both inpatient and outpatient care.

### Phase II

Phase II is designed to build upon the foundation laid in Phase I, with a focus on developing clinical skills and knowledge. The programme is divided into four semesters, each of which comprises a set of core modules and electives.

### Phase III

Phase III is the final year of the programme, during which students undertake a series of clinical rotations in various specialties, including general practice, surgery, obstetrics and gynaecology, and psychiatry. The programme culminates in a supervised clinical placement, which involves the application of the knowledge and skills acquired throughout the programme.

Entry Requirement

- **A-Level/STPM**
  - Grade B/B+ in 3 subjects (A-Level) or 4 subjects (STPM) including Mathematics
